RE: Operations and Progress Report  
Grand County, Utah  
ACT/019/006

Dear Mr. Hester:

We have just received your 1982 Operations and Progress Report on MR Form 3 with the attached maps. With reference to the maps it was noticed that plat seven (7) was not included. Was this an oversight or because no work has been done in that part of the mine.

With reference to the 70 exploratory drill sites, a copy of MR Form-9 has been enclosed to facilitate your reporting of abandonment procedures for this operation. Please make note that this form is now required under M-3(5) regulations which were amended January 28, 1982. A copy of those changes as well as the revised plugging guidelines have been enclosed for your information.

Thank you for your cooperation. When in the area a member of the Division staff will examine the sites.

Sincerely,

  
CYRIL J. YOUNG  
ENGINEERING GEOLOGIST
